

VENTURE CREW 45 PRESENTS

STEEL CHALLENGE

Join Venture Crew 45 at the Boulder Rifle & Pistol Club for competition in the Steel Challenge. Held three times a year, the February and May events will be 4-stage competitions and a "How To Shoot Steel" training class will be offered for instruction. The September event will be a full 8-stage competition. All three events consist of Steel Challenge and Scholastic Steel Challenge stages. This will be a "lost brass" event. Participants must bring their own eye and ear protection, as well as their own lunch. The events will end when all shooters have completed their shooting.

Participants must bring their own firearm and ammunition. Limited ammo will be available for purchase.

Eyes and ears are required to be worn while on property.
